Technologies*

**VELAMMAL ENGINEERING COLLEGE
CHENNAI – 600066**

TIFAC-CORE in Pervasive Computing Technologies

This Centre of Relevance & Excellence (CORE) will seek to act as a catalyst for realizing the vision of Pervasive Computing. The essence of this vision is the creation of environments saturated with computing power and wireless communication devices gracefully integrated with human users. A team of dedicated engineers are working in four distinct niche areas:

- (1) Mobile Computing
- (2) Embedded and Applied Computing

- (3)** Mobile, Ad-hoc & Sensor networks
- (4) RFID and Sensor Application.

Programme Objectives

This programme endeavors to impart the essential skill sets to design and implement Mobile Computing Applications. The programme will also be beneficial for faculty, pre-final year and final year students of Engineering Colleges.

Participants

- Working professionals from industries,
- Research scholars and Faculty from academia.
- Students of the Engineering disciplines such as Computer Science and Engineering / Computer Engineering/ Information Technology/ Electronics / Electrical / Electronics and Communication / Electronics & Instrumentation.

Desirable Pre-requisite

OOPS concepts,
Core JAVA.
Wireless Communication concepts.

Resource Persons

Distinguished faculty from academia
Software professionals and
Experts from Industry

Course Contents

- Basic Applications for Mobile Devices
- J2ME: Overview, Architecture, High-Level Display, Low-Level Display, Record Management System, Database Concepts, Networking and Web Services
- Symbian OS: Introduction, Application Development, Architecture
